Correction to: A novel small diameter nanotextile arterial graft is associated with surgical feasibility and safety and increased transmural endothelial ingrowth in pig

John Joseph^{1,2}, Vito Domenico Bruno¹, Nadiah Sulaiman¹, Alexander Ward¹, Thomas W. Johnson¹, Helna Mary Baby², Shantikumar V. Nair², Deepthy Menon^{2*}, Sarah Jane George^{1*}, Raimondo Ascione^{1*} , Praveen Kerala Varma³ and Rajesh Jose³

Correction to: *Journal of Nanobiotechnology* (2022) 20:71
<https://doi.org/10.1186/s12951-022-01268-1>

Following publication of the original article [1], the authors would like to include two new co-authors and revised author's contributions statement.

1. Dr. Praveen Kerala Varma
email: varmapk@gmail.com; praveenv21204@aims.amirta.edu
2. Dr. Rajesh Jose
email: rajeshj21304@aims.amirta.edu

The author group has been updated above and the original article [1] has been corrected.

Authors' contributions

JJ: developed the graft in Amrita, did lab-based work in Bristol, analyzed data and drafted the manuscript; VDB: assisted animal surgery in Bristol and undertook vascular

doppler; NS: helped with lab-based work in Bristol and the bioreactor; AW: helped with graft engraftment lab-based work in Bristol; TJ: undertook the ex-vivo optical coherence tomography on explanted grafts in Bristol; HMB: undertook mechanical strength work at Amrita and prepared Fig. 2a, 4a, and graphical abstract; PKV: helped developing the graft in Amrita before studies in Bristol; RJ: helped developing the graft in Amrita before studies in Bristol; SK: helped developing the graft in Amrita and securing previous funding from the Indian Government; DM: helped with developing the graft in Amrita including supervising the Amrita-based bench testing and related interpretation, co-secured the funding for the Commonwealth Scholarship Commission for the Split-site scholarship, co-drafted the manuscript; SJG: supervised the lab-based histology work in Bristol related to graft characterization and interpretation, co-secured the funding for the Commonwealth Scholarship Commission for the Split-site scholarship, co-drafted the manuscript; RA: acted as senior author, conceived and led all the bioreactor and in-vivo work done in Bristol and related interpretation, secured all funding to support bioreactor and in-vivo work in Bristol, co-drafted the manuscript and was corresponding author. All the authors have read and approved the final manuscript.

The original article can be found online at <https://doi.org/10.1186/s12951-022-01268-1>.

Ready to submit your research? Choose BMC and benefit from:

- fast, convenient online submission
- thorough peer review by experienced researchers in your field
- rapid publication on acceptance
- support for research data, including large and complex data types
- gold Open Access which fosters wider collaboration and increased citations
- maximum visibility for your research: over 100M website views per year

At BMC, research is always in progress.
